

HEATING ELEMENTS

1. CHANNEL HEATHER

From 1 to 6 channels
 Application range: 60 ÷ 380V
 Maximum working temperature: 1,250°C

2. FINGER Elements

From 4 to 62 fingers
 Application range: 5.2 ÷ 80V
 Maximum working temperature: 1,250°C

3. ROPE Heaters

Minimum curvature 200mmØ
 30V – 1.35Kw
 60V – 2.70Kw

4. BRAIDER Heaters

5. F.C.P. Heaters

Flexible Ceramic Pad
 Varied formats L = nx 25mm; A = nx 21mm
 Application range: 30 ÷ 380V – 45A
 Maximum working temperature: 1,050°C

6. F.I.P. Heaters

Flexible ceramic pad with insulation and sheet backing for typical applications in preheating welds

7. FLAT ARMoured HEATHER

8. INFRARED RADIAN HEATHER

Application range: 60 to 240 V.-
